Error in Algorithm To Compute A

In section 6.2.1 of chapter 6 of the course notes (published on 2018-11-02), there is an error in the formula that computes the diagonal element $(A)_{ii}$

Corrected Version

The diagonal element $(A)_{ii}$ is computed as

- If both parents s and d of animal i are known then
 - the diagonal element $(A)_{ii}$ corresponds to: $(A)_{ii} = 1 + F_i = 1 + \frac{1}{2}(A)_{sd}$ and
